

## Rockwell Parts

Rockwell Parts - AxleTech International is a premier provider in the world of specialty vehicle drive-train systems and components along with off highway vehicles. The company prides itself on being its customers' preferred supplier. AxleTech strives to meet and exceed their customers' expectations for service, technology, delivery and quality. They believe in working in an environment which encourages the highest integrity with empowered teamwork, together with a unremitting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great emphasis on being an environmentally conscious company and offering a safe atmosphere for their workers to work in. Moreover, they have implemented many programs within the company so as to help articulate these values within their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with any questions or comments, because they are happy to share and promote this policy with a greater understanding of their efforts. They are extremely committed to preserving and improving the natural environment. AxleTech has an EHS program which not just protects the natural world but which likewise actively protects their employees and neighbors also.

AxleTech specializes in the designing and manufacture of planetary axles used for both military and commercial applications, which could include anything from construction equipment to airport ground support. They take great pride in being a ground-breaking drive-train solutions provider as well. AxleTech specifically designs axles so as to meet specific application demands. They have more than 1000 different axle specs within their current offering. With over 100+ years of history and experience, AxleTech proudly supplies the most complete solution for whatever of your axle needs. The company is well known in many military and commercial applications. They provide complete axle assemblies for aftermarket replacement needs, together with servicing axle requirements for OE production. Their high mobility ISAS have further details which could be seen in the "ISAS" product selection.
